## REV. GIBLETT FIRM IN DETERMINATION

Declines to Reconsider Resignation at Congregational Meeting—Members of the Church Will Feel Loss.

Rev. T. J. Giblett, pastor of the First Baptist church, refused to reconsider his resignation from the pastorate at a congregational meeting held in the church Thursday evening. Some time ago the well known minister tendered his resignation to the trustees of the church. At a meeting of this body the members asked the pastor to reconsider the resignation. He notified them as well as the congregation that under conditions as they existed it would be impossible for him to remain in charge of the congregation.

Just what the nature of the trouble is that prompted the pastor to resign is not generally known. He had made a great success as pastor of the congregation and was one of the foremost ministers of the city. It is said, however, that some slight disagreement has resulted that makes it impossible for Rev. Giblett to continue at the head of the church.

It is generally believed that Mr. Giblett's resignation is now final. Although the congregation voted unanimously for him to remain, he had already stated that it was impossible for him to do so, so there is little hope of his remaining.

Mr. Giblett has no plans for the future as yet. It is generally believed that he should decide to leave the city and the congregation at this time. The Baptist congregation is building a beautiful new church and it would have only been his due, according to members of his parish, that he should be the first pastor of this new church.

Mr. Giblett has been pastor of the First Baptist church here for five years. During this time the congregation has increased one-third. The general condition of the church in all its departments has been raised through his influence. The church stands first among all the Baptist churches represented at associational conventions, and his influence has been the untiring efforts of its pastor, Rev. Giblett.

**MOTORCYCLIST HITS SOUTH BEND PEOPLE**  
While driving east on Vista Ave. Wednesday evening, Mr. and Mrs. Ora Clark and three children narrowly escaped serious injury when run into by a motorcycle. Mrs. Clark suffered from the shock and fainted. David Morrill of this city, the motorcyclist, contends that he did not see the carriage, as the lights from the street lamps blinded him.

Merritt was thrown from the motorcycle and the wheel so badly damaged that a day was called to remove it to his home.

With the assistance of Clem Hartman, Mrs. Clark and children were taken to their home in River Park. It is claimed to be the fourth accident to the Clarks in the last four years.

## HAD UNIQUE PLAN TO RETIRE SALOON

An unusual proposal has developed in the liquor fight in Mishawaka, growing out, it is said, of the contest in the third ward to prevent removal of operating places in that ward, which it is claimed would prevent another saloon to be established in that section. J. C. Casbon, who operates a cigar store at 124 West Second st., and a saloon next door, applied to the commissioners for permission to move his saloon which he had sold, to 310 West Fourth st. The commissioners refused all requests for transfers in that ward.

It is understood that Casbon is willing to sacrifice his saloon, as the business is distasteful to him, and he will retire from business provided he can dispose of his license or the unused portion of it. Religious workers have been approached on the matter by attorneys interested in the liquor fight, and have been asked to raise the money to let Casbon out of his saloon. It is pointed out that such action taken by the anti-liquor people is far more charitable a way of handling the liquor question than the usual agitation and scolding of public officials.

The parties favoring the plan declare it should be done, in order to reduce by one the saloons in the city, and they are determined to seek relief at the hands of the council, and county commissioners for a refund of the money paid for the license money, holding that the refund of the saloon justifies such means, and feeling that the city should meet Mr. Casbon's proposal half way.

## FOURTH ATTEMPT MADE TO ROB EAST END STORE

For the fourth time within four weeks parties attempted to gain entrance to the Northside grocery store by breaking into rear windows. Someone between 10 and 11 o'clock Thursday night attempted again to break into the place by smashing a glass in the rear of the store. The person or persons who were attempting to get in because of iron bars placed there for that purpose. Whoever the person or persons were, they were unable to get in because of iron bars placed there for that purpose. Whoever the person or persons were, they were unable to get in because of iron bars placed there for that purpose.

It seems that this place is a much desired store for robbers as many attempts have been made, some of them being successful. A young man, who was in the store at the time, was unable to get in because of iron bars placed there for that purpose. Whoever the person or persons were, they were unable to get in because of iron bars placed there for that purpose.

## S. D. SPEAKERS TO REMAIN AT HOME

The rifling of the mails last week will prevent Postmaster Cadmus Crabill from being one of the principal speakers at the state Y. M. C. A. conference at Fort Wayne this week as he is compelled to remain at home.

An effort has been set on foot to land the next conference in South Bend. Because the city is not centrally located in the state, it has been refused the conference in the past, although every large city has had it. The matter will be presented to the conference.

Among the several important business matters to come up at the session will be a discussion of the imminent question and how Y. M. C. A. buildings can accommodate more. In nearly every association of the state a special course in English has been given for men during the past year, and plans to meet the increased demands will be made.

Dr. Peter Roberts, employed in 1908 to investigate immigration conditions in the state of Indiana by the South Bend association, will present a report including much of the statistics of his work, at the big session. In his report he calls for more attention to the gradual drift of the population from the country to the cities and suggests better farm management as a remedy.

Dr. Roberts has worked out a course to be taught to foreign men, and it will be presented. A plan to present the Y. M. C. A. as a reception building for immigrants will likewise be presented. It is believed that if they were led into the institutions at the start they could be directed to parts of the country best adapted for them. That is suggested to them that they take up agriculture is part of the suggestion of Dr. Roberts' report.

A man from Atlanta said that he thought the physician to be in this city and Yeatman came here. Inquiry at the postoffice was made and it was found that he is not listed there. Taylor is believed, may be traveling under an assumed name, and the search was continued at the offices. Among the places visited was the News-Times office, as Taylor is a writer as well as a physician.
